

**The 13th International Conference  
on Advanced Communication Technology 2011**  
February 13 – 16, 2011, Phoenix Park, Republic of Korea, <http://www.icact.org>

## Speaker's Biography

Paper code		20110122	
Title of Paper		Quadrant Based Intelligent Energy Controlled Multicast Algorithm for Mobile Ad Hoc Networks	
Speaker's Name		Farukh Mahmudur Rahman	
Title		Mr.	
Organization		RMIT University, Melbourne, Australia	
Position in Organization		PhD Candidate	
E-mail		Farukh.Rahman@student.rmit.edu.au	
Full Mailing Address		103 Signature Blvd	
City	Point Cook	State	VIC
Country	Australia	Postal Code	3030
Tel. No.	+ 61 3 93948891	Fax. No.	
<b>Speaker's Biography</b>			
<p>Farukh M. Rahman is a PhD candidate under the School of Electrical and Computer Engineering, RMIT University, Melbourne, Australia. His key research focus is to develop a unique routing algorithm for Mobile Ad Hoc Networks that is fast, reliable, power efficient and secure as well as commercially deployable. He has completed his Masters of Engineering in Information Technology from RMIT University in the year 2005 and B.Sc. Engineering in Electrical and Electronic Engineering in the year 2001.</p> <p>While pursuing his research, he is working in Telstra corporation, the leading telecommunication provider in Australia for the past 6 years. Currently he is working for National Escalation Team of Telstra Enterprise and Government to manage critical telecommunication projects and escalated incidents. He has also worked as a Technical Specialist under Telstra operations where his key responsibility was network level incident management for PSTN and Broadband networks. Prior to joining the fixed network team, he was working for Telstra mobile that developed his sheer interest towards Cellular world.</p> <p>So, alongside of performing research in the wireless arena, he has around 8 years of technical, leadership and management experience in Telecommunication sector.</p>
