Speaker's Biography (Please detail below special points of background experience)			
AMIT KRISHNAN is a student currently pursuing his B.E. degree in Instrumentation Engineering from the University of Mumbai, India. He is in the final year of the course. He has been involved in many projects dealing with Embedded Systems Applications that have been presented in National and International competitions organized by prestigious companies such as Microsoft and National Instruments. For the past year he has been involved in research aimed at exploring the possibilities provided by the UID (Unique IDentification) smart card; a unique identity number to be provided to each citizen of India by the government.
