<b>Speaker's Biography (Please detail below special points of background experience)</b>			
<p>Dr. Hyongsoon KIM has been with National Information Society Agency (NIA) of Korea since 1997, where he is now the Director of Network Planning Department. NIA is a statutory agency founded by Article 10 of the Framework Act on Informatization Promotion for the purpose of promoting informatization and to support development of related policies for national agencies and local autonomies. He managed the pilot projects on IPv6 and also worked as the chair of Service Transition Working Group of IPv6 Forum Korea in 2007. He contributed to the construction of the Korean e-business' policy from 1997 to 2002, and was in charge of the international cooperation of the KOREN from 2005 to 2006. His current research interests include Broadband Network policies, NgN, International Research Network and BcN for rural areas.</p>
