Saurabh Agarwal received a Ph.D. degree in computer engineering from the University of Delhi, India, in 2017. From 2019 to 2023, he was a Korean Research Fellow in South Korea. Since 2024, he has been a Research Professor at Yeungnam University, Gyeongsan, South Korea. His research interests include image forensics, computer vision, and machine learning.

Rajeev Kumar earned his Ph.D. in Computer Engineering from the University of Delhi, India, in 2017. Following this, he completed a Post-Doctorate at Kyungil University, South Korea. Presently, he holds the position of Assistant Professor in the Department of Computer Science and Engineering at Delhi Technological University, Delhi, India. Recognized for his expertise, Dr. Kumar was honored with a fellowship from the National Research Foundation (NRF), Korea, spanning the periods of 2018-2019 and 2021-2025. This fellowship supported his work on projects within the realm of multimedia security. Notably, he received Commendable Research Excellence Awards from Delhi Technological University in 2022, 2023 and 2024. Dr. Kumar actively contributes to the scholarly community. He serves as an Associate Editor for the Journal of Information Security and Applications (JISAs) published by Elsevier, the Journal of Electronic Imaging (JEI) published by SPIE, SN Computer Science published by Springer, and as a Review Editor for the journal 'Frontiers in Signal Processing.' Additionally, he is an editorial board member of the prestigious Scientific Reports, Nature. Moreover, he has also been awarded membership to the APSIPA Multimedia Security and Forensics Technical Committee. His research interests span a wide spectrum, including Privacy and security concerning neural networks, steganography, reversible data hiding, multimedia forensics, image processing, compression, hyperspectral image classification, and wireless sensor networks. His contributions to academia are evident through his extensive publication record and multiple patented inventions.

Abha earned her Ph.D. from Chaudhary Charan Singh University, Meerut, India, in 2013. She has been an Assistant Professor at JS(PG) College, Sikandrabad, Uttar Pradesh, India, since March 2020. Beyond academia, Dr. Abha has actively participated in national seminars and training programs, contributing to discussions on social justice, youth challenges, and

economic independence. Her research interests include English Literature, Sociometric Analysis, and Teaching Methods.

Ki-Hyun Jung received his B.S. degree in Computer Engineering from Kyungpook National University in 1995 and his M.S. degree in Computer Engineering from Kyungpook National University in 1997, South Korea. He received a Ph.D. degree in Computer Engineering from Kyungpook National University in 2007, South Korea. He was employed as a senior researcher at the Agency for Defense Development, South Korea, from 1997 to 2003. He was a professor at Yeungjin College and Kyungil University in South Korea. Currently, he is a professor at the Department of Software Convergence, Andong National University, South Korea. His current research interests are information hiding, watermarking, cryptography, network security, games, and mobile programming.
